**From meteorites to proteins –
the universal power of mass spectrometry**

This talk will summarize an extraordinary conference on mass spectrometry, the Indian Society of Mass Spectrometry Silver Jubilee Symposium (ISMAS-SJS-2003), which took place in Goa, India, from January 26 to 31, 2003. The conference touched upon almost every modern mass spectrometric method (TIMS, SIMS, GAS-MS, MC-ICP-MS, LA-ICP-MS, MALDI-TOF, FTICR, LC-MS/MS, AMS, RIMS, etc.). The aim of this presentation is to convey the many facets of mass spectrometry as applied to a large variety of fields.

Donnerstag, 6. März 2003, 16:30 Uhr

**1090 Wien, Währingerstr. 17, "Kavalierstrakt",
1. Stock, Seminarraum von VERA**
