**Report on the
Gordon Research Conference on Nuclear Chemistry,
New London, NH, USA, 1-5 June 2015**

After a brief review of the status of nuclear structure studies, some new applications of nuclear physics will be discussed. These will include the situation of the ^{99m}Tc production, the use of layered nanoparticle for targeted alpha generator radiotherapy, and ^{81}Kr measurements with the laser atom-trap technique to date old groundwater.
