2017 Nuclear Emergency Expert Meeting (NEXT)  
at the University of Hannover**

From August 30 to September 1, 2017, the Institute of Radioecology and Radiation Protection of the Leibniz University Hannover organized an international meeting of experts from different fields to discuss the lessons one learned from the nuclear reactor accidents of Chernobyl and Fukushima. Besides the physical facts of these accidents, various other aspects including economic, social and psychological consequences were discussed. This report will try to convey a personal impression of the meeting on a topic which concerns many people around the world.
