

Dear lecturer,

the Austrian centre of the International Nuclear Information System (INIS) pays attention to your lecture held during the VERA seminars, organized by the Isotope Research and Nuclear Physics group from the University of Vienna, and is interested in adding it to the INIS database.

For this we need your approval!

The INIS database is operated by the International Atomic Energy Agency (IAEA) of the United Nations Organization and is the most comprehensive database in the field of nuclear sciences worldwide.

This database is internationally available via the internet free of charge and offers you the possibility to present your work to a wide audience of experts.

For further information on the INIS database please visit the website:

<http://www.iaea.org/inis/>

You can revoke your consent at any time. In this case the entry in the database will be deleted completely in reasonable time.

---

Please tick the boxes below to confirm your consent und fill in your email address here, so that we can get in touch with you if necessary.

Email:

hanemann@irs.uni-hannover.de

I agree that the abstract of my VERA seminar lecture is added to the database of the International Nuclear Information System (INIS)

I further affirm that:

I am the holder of all the rights to this document
